

BARILLEC MARINE VIETNAM PRESENTS ITS KNOW-HOW AT THE ASIA PACIFIC MARITIME (APM) SHOW IN SINGAPORE

We are pleased to invite you to Asia Pacific Maritime exhibition in Singapore.

Dear partners and customers,

For this 2018 edition, **BARILLEC marine** will showcase at the French Pavillion. As a key player in electricity, we provide innovative apps for hybrid propulsion, power generation and management and energy storage for all type of ships and worldwide customer service for new constructions, refit or ship-repair. Our subsidiary in Vietnam, with French quality and management offers our customers skills and proximity of a local team of 50 experienced people.

BARILLEC marine means a unique name, a signature and shared values. We will take advantage of our participation at APM to introduce our new organization and present you our Vietnamese subsidiary under the banner of BARILLEC marine Vietnam. A new organization which contribute to achieve the development of our services in France and internationally.

We are currently working on the supply of electric propulsion packages, switchboards and power conversion cabinets for freezer-longliners, tug boats and RoPax ferries with local shipyards. Our sales team will attend APM to present our solutions for the maritime and shipbuilding industry.

Meet us at APM Singapore, French pavilion, booth B-PO2
